

Dear Hiring Manager,

I am writing to express my interest in the Job Title: Junior Generative AI Engineer position at your organization. As a Computer Science fresher, I have developed project experience aligned with the role's focus and am eager to contribute while continuing to learn.

Relevant project experience includes Student Performance RAG Chatbot, Telecom Churn Logistic Regression.

My profile includes source-supported experience with Python, SQL, SQLite, MySQL, Text-to-SQL, ChromaDB, RAG, Embeddings.

I would welcome the opportunity to discuss how this project-based background could support your team. Thank you for your consideration.

Regards,

Thummalapalli Harsha

Note for internal preparation: the JD includes requirements not currently supported by the profile: langchain, faiss, docker.
