PROFESSIONAL SUMMARY

Computer Science fresher focused on Python-based data analysis and applied machine learning. Built source-supported projects covering EDA, preprocessing, classification, model comparison, and evaluation. Hands-on evidence includes Pandas, NumPy, Scikit-learn, XGBoost, SQL, and data-focused application workflows. Seeking an entry-level Software Engineer or Intelligence role applying truthful experience to data and ML systems.

SKILLS

Programming: Python, SQL

Libraries / Frameworks: Pandas, NumPy, Scikit-learn

AI / Machine Learning: RAG, XGBoost

Databases: SQLite, SQL

Tools / Platforms: Git, GitHub

Languages: English, Telugu, Hindi, Tamil

PROJECTS

SmartFraud Classifier

- Loaded and explored a 284,807-transaction fraud dataset, applying preprocessing and class-imbalance handling with SMOTE.
- Compared Decision Tree, Random Forest, and XGBoost models for binary fraud classification.
- Evaluated model performance with precision, recall, and F1 metrics and saved model artifacts.

Tech Stack: Python, Pandas, NumPy, Scikit-learn, XGBoost, Matplotlib

Project Link: <https://github.com/thummalapalliharsha/SmartFraud-Classifier>

Telecom Churn Logistic Regression

- Inspected and explored a 1,500-row telecom churn dataset before building a binary classification pipeline.
- Applied scaling, one-hot encoding, class-imbalance handling, and GridSearchCV optimization for logistic regression.
- Evaluated churn predictions with classification metrics, confusion matrix, and ROC-AUC analysis.

Tech Stack: Python, Pandas, NumPy, Scikit-learn, Statsmodels, Matplotlib

Project Link: <https://github.com/thummalapalliharsha/telecom-churn-logestic-regression>

EXPERIENCE

Artificial Intelligence Intern — Ediglobe (February 2024–March 2024)

- Implemented data preprocessing pipelines in Python.
- Built and evaluated classification models using Scikit-learn.
- Performed exploratory data analysis on structured datasets.

EDUCATION

Bharath Institute of Higher Education and Research — B.Tech

Computer Science and Engineering (2022–2026); CGPA: 7.94

Harvest Public School — Class XII — CBSE (2022); 70.8%

Harvest Public School — Class X — CBSE (2020); 82.2%

CERTIFICATIONS

- Artificial Intelligence Internship — Ediglobe (February 2024)
- AI-ML Virtual Internship — EduSkills (March 2025)
- TCS iON Career Edge – Young Professional — TCS iON (March 2025)
- Introduction to Internet of Things — NPTEL (April 2025)
